

# Renewable Energy Business Network – REBnetwork.org – operated by R7 SBDCs

**Welcome**

The Renewable Energy Business Network is a virtual showcase of renewable energy suppliers, biomass producers, manufacturers of renewable energy equipment, renewable energy research and development firms, and renewable energy researchers. Connecting Renewable Energy Suppliers, Resources, innovation, and research to each other and to business services

**Join the Network**

If you are involved in renewable energy production or research, join our network! Please contact us to be included.

# BLS 2011 GTP Survey

- Surprising small-to-no effect (education, urban-rural)
- Too soon to id leaders & laggards relative to community attributes
- Call to action: results will identify locations of adopters & laggards
